March is Spring Cleaning Month

The Public Works and Environmental Services Department is proud to announce the 28th Annual Spring Cleaning Month.

Spring Cleaning Month is the perfect time to pull out old and broken equipment, pick up scrap metal, and get a jumpstart on fire ant control. The Public Works and Environmental Services Department is dedicated to promoting efforts to maintain the inherent beauty of Sunset Valley.

We are pleased to announce the continuation of several popular programs, such as curbside brush chipping, mulch delivery, and electronic recycling. March is also the time for special services, such as household hazardous waste and bulk item pick-up. Information on each of these services is available within this program guide.

Spring Cleaning Month culminates with the Sunset Valley Open House, on Saturday, March 23rd. At the Open House, residents can learn about conservation rebate programs, as well as receive some great Spring Cleaning supplies. New residents are encouraged to attend and learn about programs the Department offers.

We look forward to an exciting and eventful month to celebrate 28 years of this annual event. Visit the Public Works and Environmental Services website at www.sunsetvalley.org for more information on programs.

Public Works Director

SPRING CLEANING MONTH

March 5th

March 7th/26th

March 18th

March 28th

Metal Recycling

Bulk Item Pick-Up

Electronics and Household Hazardous Waste

Brush Chipping

Scrap metals such as fencing, auto/tractor parts, lawn mowers, sheet metal, non-contaminated metal drums, and water heaters will be collected curbside on March 7th. These items can also be dropped off in the Metal Recycling Dumpster in the storage yard behind the Public Works garage throughout the remainder of the year. The Storage Yard will reopen in April.

Small bulky items will be collected throughout the month of March by Public Works. Other items small enough to fit in your trash container should be placed by the curb on regularly scheduled trash pick-up days. The trash company will not accept construction debris, tires, old lumber, lawn mowers, or hazardous waste.

All electronics, including computers, can be placed curbside on March 18 for pick-up. Also place all **batteries, oil, paint, and antifreeze** on the curb this day for disposal. Most electronics can be dropped off at local Goodwill locations throughout the year for recycling. Household Hazardous Waste can be disposed of at the Austin/Travis County facility throughout the year.

The Public Works Department offers curbside brush chipping by request the last Thursday of each month. Contact Public Works at 512-891-9103 to schedule this service. This is offered on a first come first serve basis.

Tires

The Public Works Department collects used tires for recycling. Residents may bring their tires to us throughout the year, once the Storage Yard re-opens. Tires can also be placed on the curb on Bulk Item days during Spring Cleaning Month.

SPRING CLEANING MONTH

Checklist

- Clean gutters.
- Remove trash and brush from yard.
- Pressure wash fence and deck.
- Test irrigation system.
- Plant garden.
- Schedule mulch delivery.
- Sort through Items for disposal.
- Bulk items on street March 7th/26th
- Metal on street March 5th.
- Check on rebate programs
- Spend time outside.
- Help my neighbor.
- Have a great Spring Cleaning Month.

**Mulch Delivery
Available
Every Wednesday**

By request, Public Works staff will deliver mulch (wood chips) to your property. Amount is limited to one truckload (about 7 cubic yards) per address. Residents can have up to two deliveries per year. Deliveries are scheduled for each Wednesday in March. The cost for delivery is \$25.00.
