4. The term quality of life is used to evaluate the general well being of individuals and communities. While the term is used in a wide range of contexts, quality of life should not be confused with the concept of standard of living, which is based primarily on income. Instead, standard indicators of the quality of life include not only wealth and employment, but also the build environment, physical and mental health, education, recreation and leisure time, and social belonging. Based on this definition, how would you rate the quality of life of residents in Sunset Valley.
